Mini Yellow Pages

Oak & Elm Neighbors

Neighborhood directory & emergency guide

Updated November 5, 2026 · 13 households

Important numbers

Emergency (police / fire / medical)	**911**
Poison Control	**1-800-222-1222**
988 Suicide & Crisis Lifeline	**988**

Private: for participating neighbors only. Please don't post online or share outside the neighborhood.

Directory

ELM AVE

Chris Ward **555-0107**
15 Elm Ave
Arborist
Skills: Tree work / Chainsaw
Has: Chainsaw, Ladder
Pod 1 · Elm Ave

Linda & Paul Okafor **555-0108**
21 Elm Ave · okafors@example.com
Physician; accountant
Skills: Doctor
Has: Generator
⚠ Paul uses oxygen (needs power)
Pod 1 · Elm Ave

Hannah Kim **555-0109**
27 Elm Ave
Social worker
Skills: Mental health, Elder care
Pod 1 · Elm Ave

Jamal Carter **555-0110**
33 Elm Ave
Plumber
Skills: Plumber, Gas / HVAC
Has: Shut-off wrench, Tent / tarps
Pod 1 · Elm Ave

The Russo family **555-0111**
39 Elm Ave
Firefighter
Skills: Firefighter, Search & rescue
Has: Fire extinguisher, Pool / large water source
Pets: 2 dogs
Pod 1 · Elm Ave

Mei Chen **555-0112**
45 Elm Ave
Pharmacist
Skills: Mandarin, Cantonese
Pod 2 · Elm Ave / Oak St

OAK ST

Maria & Tom Alvarez **555-0101**
112 Oak St · maria.a@example.com
ER nurse; contractor
Skills: Nurse, CPR / First aid, Carpenter / Handyperson, Spanish
Has: Generator, Ladder
Pod 2 · Elm Ave / Oak St

Dev Patel **555-0102**
118 Oak St
Software engineer
Skills: IT / Networking, Ham radio operator
Has: Two-way radios, Solar charger / power bank
Pod 2 · Elm Ave / Oak St

The Nguyen family **555-0103**
124 Oak St · nguyenfam@example.com
Restaurant owner
Skills: Cooking for groups, Vietnamese
Has: Camp stove, Stored water
⚠ Infant at home
Pod 2 · Elm Ave / Oak St

Ruth Goldberg **555-0104**
130 Oak St
Retired teacher
Skills: Childcare
⚠ Lives alone; uses a walker
Pod 3 · Oak St

Sam & Jordan Lee **555-0105**
136 Oak St · leehouse@example.com
Electrician; vet tech
Skills: Electrician, Veterinary
Has: Truck / trailer, Shut-off wrench
Pod 3 · Oak St

Aisha Bello **555-0106**
142 Oak St
Paramedic
Skills: EMT / Paramedic, CERT trained
Has: Extra first-aid kit, AED
Pod 3 · Oak St

Test Person .....
200 Oak St
Skills: Plumber
Pod 3 · Oak St

Who can help: skills & resources

Skills

Cantonese
Mei Chen (45 Elm Ave, 555-0112)

Carpenter / Handyperson
Maria & Tom Alvarez (112 Oak St, 555-0101)

CERT trained
Aisha Bello (142 Oak St, 555-0106)

Childcare
Ruth Goldberg (130 Oak St, 555-0104)

Cooking for groups
The Nguyen family (124 Oak St, 555-0103)

CPR / First aid
Maria & Tom Alvarez (112 Oak St, 555-0101)

Doctor
Linda & Paul Okafor (21 Elm Ave, 555-0108)

Elder care
Hannah Kim (27 Elm Ave, 555-0109)

Electrician
Sam & Jordan Lee (136 Oak St, 555-0105)

EMT / Paramedic
Aisha Bello (142 Oak St, 555-0106)

Firefighter
The Russo family (39 Elm Ave, 555-0111)

Vietnamese
The Nguyen family (124 Oak St, 555-0103)

Check-in pods

After an emergency, check on every household in your pod within the first hour, starting with anyone marked ⚠. Captains report to the neighborhood organizer.

Pod 1 · Elm Ave

☐	**Chris Ward** ★ 15 Elm Ave	555-0107
☐	**Linda & Paul Okafor** 21 Elm Ave ⚠ Paul uses oxygen (needs power)	555-0108

★ = pod captain · ☐ = tick off once you've reached them

Emergency guides

Shutting off the gas

Only shut off gas if you smell it, hear it hissing, or see damage to the line.

When to shut it off

1. You smell gas (rotten-egg odor), hear a blowing or hissing sound, or see a broken gas line.
2. Do NOT shut off gas just because there was an earthquake or outage. If there's no sign of a leak, leave it on.

If you suspect a leak

1. Get everyone out of the house right away. Leave the door open behind you.
2. Do not flip light switches, use phones, light matches, or start cars near the leak. Sparks can ignite gas.
3. From a safe distance, call 911 and your gas utility.

How to shut it off at the meter

1. Find your gas meter. It's usually on the side of the house or in a basement or garage. Know where it is before an emergency.
2. Find the shutoff valve on the pipe coming out of the ground into the meter.
3. Use a 12–15" adjustable wrench or a gas shutoff tool. Turn the valve a quarter turn so the tab (tang) is crosswise to the pipe. Parallel = on, crosswise = off.
4. Keep the wrench next to the meter, tied on with wire, so it's there when you need it.

> **Afterward**
>
> Never turn the gas back on yourself. Only the utility or a licensed professional should turn it back on and relight pilot lights. It can take days after a major event, so only shut it off if you need to.

Shutting off the water

Shut off the water to stop flooding from broken pipes and to keep contaminated city water out of your pipes.

Find your main valve now

1. Most homes have a main shutoff where the water line enters the house. Look in the garage, basement, crawl space, or by the water heater.
2. There's often a second valve at the street meter box. Opening it may require a meter key.
3. Turn the valve clockwise (righty-tighty) to close it. For a lever valve, turn it a quarter turn so the lever is crosswise to the pipe.

Save the water you already have

1. Your water heater holds 30 to 80 gallons of drinkable water. If there are reports of contamination, shut off the main valve first so bad water can't get in.
2. Turn off power or gas to the water heater before draining from the valve at the bottom.
3. Toilet tanks (not bowls) also hold usable water if they don't contain cleaning tablets.

Boil-water notices

If officials issue a boil-water notice, bring water to a rolling boil for 1 minute (3 minutes at high elevation) before drinking, or use stored or bottled water.

Electricity and generators

Turn off power when there's flooding, sparking, or you need to evacuate. Run generators outdoors only.

Shutting off power at the panel

1. Find your main electrical panel (garage, basement, utility closet, or outside wall).
2. Switch off the individual circuit breakers first, then the main breaker.
3. To restore power, turn on the main breaker first, then the individual breakers one at a time.

> ### Stay safe
>
> 1. Never touch the panel while standing in water. If it's wet, call the utility.
> 2. Stay at least 35 feet from downed power lines and assume they are live. Report them to the utility.

> ### Generators
>
> 1. Only run generators outdoors, at least 20 feet from doors, windows, and vents. Carbon monoxide kills quickly and has no smell.
> 2. Never plug a generator into a wall outlet (backfeeding). It can electrocute utility workers. Use heavy-duty extension cords or a professionally installed transfer switch.
> 3. Install battery-powered CO alarms inside.

Earthquakes

Drop, cover, and hold on. Then check yourself, your home, and your pod.

During the shaking

1. DROP to your hands and knees.
2. COVER your head and neck under a sturdy table or desk. If there's none, get next to an interior wall away from windows.
3. HOLD ON until the shaking stops. Do not run outside during the shaking.

Right after

1. Check yourself and others for injuries. Put on shoes, since there may be broken glass.
2. Check for gas leaks, water leaks, and electrical damage. See the shutoff guides.
3. Expect aftershocks.
4. Post your OK / HELP sign and start your pod check-in.

Wildfire and evacuation

Ready, Set, Go! Leave early. Don't wait for an evacuation order if you feel unsafe.

Ready (before fire season)

1. Keep a go bag packed for every household member and pet.
2. Clear dead vegetation and debris within 5 feet of the house.
3. Know two ways out of the neighborhood.
4. Sign up for your county's emergency alerts.

Set (when there's a fire nearby)

1. Put go bags, pets, and important papers in the car. Park facing out.
2. Close all windows and doors. Leave them unlocked for firefighters.
3. Tell your pod your plans and check on neighbors who may need a ride.

Go

1. Leave as soon as you're told to, or sooner if you feel threatened.
2. Follow the routes officials give you, not shortcuts from your GPS app.
3. Check in with your out-of-area contact once you're safe.

Pod check-in protocol

After any major event, every household checks on the others in its pod.

Within the first hour

1. Take care of your own household first: injuries, hazards, utilities.
2. Put a sign in your front window or on your door: OK (green) or HELP (red). Print the signs from the Print page.
3. Go to or call every household in your pod. Start with anyone listed with special needs.
4. Write down who you've reached, who needs help, and who isn't home.

Report

1. Pod captains report their pod's status to the neighborhood organizer at the meeting point.
2. Report life-threatening emergencies to 911 right away. Don't wait for the pod check.
3. Share skills and resources. The directory lists who has a generator, medical training, tools, and more.

If phones are down

Text messages often get through when calls fail. If nothing works, go to the neighborhood meeting point at the agreed time (see Settings). Ham radio operators in the directory may be able to relay messages.

Household emergency plan

Talk through this with everyone in your household, then write it down.

Decide together

1. An out-of-area contact everyone will call or text to check in. Long-distance calls often work when local ones don't.
2. A meeting place right outside your home, and one outside the neighborhood.
3. Who picks up the kids if schools close, and who checks on pets.
4. Where your utility shutoffs are, and who knows how to use them.

Write down and share

1. Phone numbers on paper. Don't rely only on your phone's contacts.
2. Medical needs, medications, and allergies for each person.
3. Your pod members' names and addresses (from this directory).

Go-bag checklist

One bag per person, ready to grab in 5 minutes. Check it every 6 months and rotate food, water, and medications.

Water & food

☐ Water: 1 gallon per person per day, at least 3 days
☐ 3 days of non-perishable food per person
☐ Manual can opener and utensils

Light, power & communication

☐ Flashlight or headlamp
☐ Battery or hand-crank NOAA weather radio
☐ Extra batteries
☐ Phone charger and backup battery pack
☐ Whistle to signal for help
☐ Printed copy of this directory and your pod list

Health & safety

☐ First-aid kit
☐ 7-day supply of prescription medications, plus a list of them
☐ Spare glasses or contacts
☐ N95 / dust masks
☐ Moist towelettes, garbage bags, plastic ties
☐ Hygiene items (toothbrush, sanitary supplies, hand sanitizer)

Documents & money

☐ Copies of ID, insurance policies, and medical info (paper and USB / cloud)
☐ Cash in small bills
☐ Written list of important phone numbers
☐ Local paper map with your meeting places marked

Clothing & shelter

☐ Change of clothes and sturdy closed-toe shoes
☐ Emergency blanket or sleeping bag
☐ Work gloves
☐ Rain gear

Tools

☐ Wrench or pliers (for utility shutoffs)
☐ Multi-tool or knife
☐ Duct tape and plastic sheeting

Family extras

☐ Baby supplies (formula, diapers, bottles)
☐ Pet food, water, leash or carrier, vet records
☐ Comfort items or games for kids

We are OK. No help needed.

We need help. Please check on us.

Mini Yellow Pages: Neighbor sign-up

We're putting together a printed directory for **Oak & Elm Neighbors** so neighbors can reach each other and help each other in an emergency. We'll also set up check-in "pods" of about 5 nearby households who agree to check on each other after a disaster. Taking part is completely voluntary.

Name(s) to list _____ Address / unit _____

Phone _____ Other phone _____

Email _____ Occupation(s) _____

Household members (adults / kids) _____ Pets _____

Skills you could offer in an emergency

☐ Doctor ☐ Nurse ☐ EMT / Paramedic
☐ CPR / First aid ☐ Mental health ☐ Veterinary
☐ Electrician ☐ Plumber ☐ Carpenter / Handyperson
☐ Gas / HVAC ☐ Ham radio operator ☐ CERT trained
☐ Search & rescue ☐ Firefighter ☐ Law enforcement
☐ Childcare ☐ Elder care ☐ Cooking for groups

Other skills / languages _____

Equipment you could share

☐ Generator ☐ Solar charger / power bank ☐ Chainsaw
☐ Ladder ☐ Extra first-aid kit ☐ AED
☐ Stored water ☐ Two-way radios ☐ Truck / trailer
☐ Wheelchair ☐ Fire extinguisher ☐ Tent / tarps
☐ Camp stove ☐ Shut-off wrench ☐ Pool / large water source

Anything neighbors should know to check on you?

e.g. limited mobility, relies on powered medical equipment, lives alone, infant at home

_____

_____

Consent

☐ I/we agree to have our **name and address** listed in the Oak & Elm Neighbors Mini Yellow Pages, shared only with participating neighbors, and to be placed in a check-in pod.

Also OK to print: ☐ Phone ☐ Email ☐ Occupation ☐ Skills ☐ Equipment ☐ Special needs (helps neighbors & responders)

You can ask to update or remove your listing at any time. The directory is for neighborhood use only and won't be posted online or sold.

Signature _____ Date _____
